

**DO&DO
Company**

Synthetic Flooring

Our story

Adrian Crișan acquires DO&DO Company Ltd. and changes its ownership in 1995. Shortly after and mostly due to the partnership with 3M, DO&DO Company is able to conclude contracts with Romtelecom and Renel, delivering both fiber-optic and copper cable network accessories for their benefit. Three years later, DO&DO Company secures its partnership with 3M and sets up a new one, with the Japanese MNC Fujitsu, a leading IT services provider.

The year 1998 represents an important moment in the development of DO&DO Company, mainly thanks to the launching of the application of special flooring systems. We have applied nearly 50 000 sq m of PVC ESD flooring for Romtelecom throughout the country. Along the side of 3M, Tarkett, Gerflor and DLW Armstrong we have applied between 1998 and 2003 some more than 200 000 sq m of flooring systems resistant to heavy traffic and some PVC ESD flooring systems for a number of major investors.

The year 2003 brings up another important partnership, this time with Sika, the Swiss global market leader in the sector of chemical based products for construction and industry.

In the wake of the partnership, DO&DO Company becomes an authorized applicator of Sika's resin based flooring systems. This rank completely changes the company's segment of resin based flooring, converting it into the main activity of the company. In Romania, more than 500 000 sq m of resin based flooring systems have been applied in company with Sika. Currently, over 85% of the company's turnover is made up of the application of resin based flooring.

The long-term vision of DO&DO Company has always been the acquisition of modern, high-tech equipment for the preparation of the substrate, with the purpose of extending the customer relationships and increasing the competitiveness in relation to the competition, having thus managed to refine the quality-price ratio. The equipment is provided by Blastrac, a world leader in the substrate preparation technology.

By means of a constant technical rigging, plus the training of our specialized personnel, we have managed to perform numerous complex works that exceed 1 000 000 sq m, within 5 major industries.

Our strengths

THE ASSIMILATION OF THE APPLICATION TECHNOLOGY

In compliance with the international norms, we applied the entire range of synthetic flooring, traffic resistant PVC flooring, carpet flooring and access flooring, all meeting the strictest standards relative to their application fields.

THE SKILFUL PERSONNEL

With an experience of over 15 years in the installation of all kinds of floors, our personnel is proficient in applying any given industrial flooring system.

THE FREEDOM OF MOVEMENT

Thanks to our utility vehicle parking space, we are able to move quickly from one place to another anywhere in Romania or abroad.

PROFESSIONALISM IN BOTH THE EVALUATION AND THE PREPARATION OF THE SUBSTRATE

One needs to have both the know-how and the technology in order to provide a wide range of services. We have them both, allowing us to offer total flooring solutions.

GREAT COMPETENCY IN THE PREPARATION OF THE SUBSTRATE

An absolute advantage, allowing us to perform a manifold of complex projects, which has ensured us a portfolio of stable and satisfied customers.

Types of applied flooring

INDUSTRIAL SYNTHETIC FLOORING

Epoxy resin flooring, Polyurethane resin flooring, Acrylic resin flooring.

PVC FLOORING AND TRAFFIC RESISTANT CARPET FLOORING

Office spaces within industrial halls, storage rooms, dining rooms, hospitals, hotels, etc.

ACCESS FLOORING

Special function technical rooms.

Our suppliers

INDUSTRIAL SYNTHETIC FLOORING

SIKA Romania

PVC FLOORING AND TRAFFIC RESISTANT CARPET FLOORING

Tarkett, Gerflor, Forbo, DLW-Armstrong, Grabo, VPI, 3M

ACCESS FLOORING

Quattro

SELF LEVELING FLOOR COMPOUND AND INDUSTRIAL FLOORING ADHESIVES

Henkel

CONFORMITY MEASUREMENTS – EVALUATION TESTING ESD FLOORING

EPA GMBH Germany

THE EXISTING PARTNERSHIPS INVOLVE LOGISTICS AND TECHNICAL SUPPORT

We respect the application procedures and we comply both with the requirements set by our suppliers and with the international norms.

The DO&DO Company team

Our personnel is periodically trained to apply floors which comply with the international standards on quality.

MANAGERIAL: 3 persons

MARKETING: 5 persons

INSTALLATION CREWS: 3 teams, 5 persons on each team

SUBSTRATE EVALUATIONS AND MEASUREMENTS: 3 engineers

PROJECT RESPONSIBLE: 3 technicians

Our equipment

Every single machine is connected to industrial vacuum cleaners.

Floor equipment provided by Blastrac

Shot blasting machines - 3 machines, 350 sq m / h.

Floor equipment provided by Blastrac

Floor milling machines and scarifiers - 2 high productivity machines.

PFT G4 type of self leveling floor compound pumps

Applying self leveling floor compound - 30 T in 15 h.

Floor grinding machines

Packed with diamond grinding pills, abrasive stone and a range of accessories for scarifying and milling - 10 machines.

HTC type of floor grinding machines

Packed with diamond grinding pills for special applications - 3 machines.

Industrial blenders

Efficiency: 1 000 sq m of epoxy resin flooring mortar applied to a thickness of 1 cm - 2 units.

Floor pumps (200 atmos.)

High volume floor pumps, used for the epoxy resin flooring dyes in wall and flooring coverings.

Flooring tools and handheld accessories

Used for the execution of various details.

Measuring instruments

Used for various substrate and ambient environment measurements, including substrate cohesion measurements and compressive strength measurements of the concrete, along with other numerous types of measurements, such as the measuring of the substrate moisture and temperature, etc.

We perform a manifold of complex flooring projects in a short period of time

Both the trained personnel and the equipment we own, enable us to carry out large working surfaces in a short period of time, at a high level of quality.

Floor shot blasting machines

3 500 sq m / 15 h shot blast machines in a continuous process.

Floor grinding machines packed with diamond grinding pills and diamond grinding tools

500 sq m / 1 h.

Epoxy resin flooring dyes

4 000 sq m / 10 h.

Applying self leveling floor compound

32 000 kg / 10 h.

Applying epoxy resin flooring systems in a continuous process

2 000 sq m and 3 000 sq m / layer.

Services

We provide a broad range of services.

Substrate evaluations

The measurement of the concrete floor flatness, the humidity measurement of the substrate, the measurement of the substrate cohesion, the measurement of the compressive strength, cracks and oil stains.

Flooring system recipes

Implies analyzing, discovering and preparing the adequate recipe for the flooring system(s) to be applied.

Substrate preparations

Shot blasting, grinding, scarifying, milling, diamond grinding with abrasive stone and abrasive paper, anchorage and crack filling, chemical degreasing.

Flooring system applications Dust-free flooring systems, epoxy resin flooring dyes, ordinary resin flooring systems applied in two or three layers, special resin based flooring systems, industrial resin flooring systems, decorative epoxy resin flooring systems, PVC and carpet flooring systems.

Repair works to epoxy resin areas Implies scraping the existing area and removing the previously installed flooring system, preparing the substrate (if applicable) and applying the new flooring system.

Industrial grindings

Through diamond grinding, stone grinding or abrasive paper.

Portfolio

WORK RATE

Simea Siemens Sibiu - Romania

ESD epoxy resin flooring system overlay and industrial floor waxing: 4 500 sq m in 28 h.

Interex Ploiești - Romania

Surface preparation, epoxy resin flooring applied in 2 layers, epoxy resin flooring dye: 1 000 sq m in 30 h.

Reinert Brașov - Romania

Skid-resistant epoxy resin flooring mortar for wet production areas: 7 600 sq m in 15 days.

Willy Kreutz Timișoara - Romania

Surface preparation, epoxy resin flooring mortar for dry production areas: 4 500 sq m in 6 days.

Flextronics Timișoara - Romania

Epoxy resin flooring moisture barrier, self leveling floor compound, PVC ESD flooring system: 5 000 sq m in 35 days.

Miele Feldioara - Romania

Epoxy resin flooring moisture barrier, self leveling floor compound, PVC ESD flooring system: 5 000 sq m in 30 days.

Vimercati East Europe Bacău - Romania

ESD resin flooring system, epoxy resin flooring dye and traffic resistant flooring system: 7 000 sq m in 4 days.

Ursus Breweries Buzău - Romania

9 mm PurCem polyurethane flooring mortar system, applied in 2 layers: 300 sq m / day and 1 500 sq m in 5 days.

Continental Automotive R&D Center Sibiu - Romania

Surface preparation, self leveling floor compound, traffic resistant PVC flooring system and ESD carpet flooring system: 1 200 sq m in 7 days.

Bosch Timișoara - Romania

Surface preparation and epoxy resin flooring system applied in 3 layers: 1 500 sq m in 6 days.

Fornetti Timișoara - Romania

Surface preparation and epoxy resin flooring system applied in 3 layers: 2 500 sq m in 6 days.

Selgros - Romania

Meat section and locker rooms. Surface preparation and epoxy resin flooring system: 1 300 sq m in 20 days.

Celestica Oradea - Romania

Epoxy resin flooring moisture barrier, self leveling floor compound, PVC ESD flooring system: 10 000 sq m in 30 days.

INDUSTRIAL HALLS

Mega Group Timișoara, Ploiești - Romania

Peugeot distributor.

Applied flooring systems: 2 traffic resistant flooring systems and 1 industrial flooring system: 4 500 sq m.

Robot Baia Mare - Romania

Volkswagen distributor. Traffic resistant epoxy resin flooring system: 800 sq m.

Edy Spedition Deva, Timișoara - Romania

Volvo trucks service center. Epoxy resin flooring dye: 2 500 sq m.

Maxi Paint Service Brașov - Romania

Automobile repair shop. Epoxy resin flooring system resistant to traffic wear and mechanical shocks: 3 500 sq m.

THIMM Packaging Sibiu - Romania

Packaging manufacturer. Epoxy resin flooring system : 110 sq m.

TMK Reșița - Romania

Steel manufacturer. Epoxy resin flooring system : 220 sq m.

Procter & Gamble Timișoara - Romania

Detergent manufacturer. Epoxy resin flooring system with a degree of resistance to chemicals for the detergent industry: 1 500 sq m.

Philip Morris Bucharest - Romania

Manufacturer of tobacco products. CompactFloor decorative industrial epoxy resin flooring system: 3 500 sq m.

VP Industries Industrial Park Ghimbav - Romania

Manufacturer of metallic maritime confections, pipe systems, snow removal and street cleaning machines.

Traffic resistant epoxy resin flooring system: 300 sq m.

Pod Construct Lugoj - Romania

Bridge over the Timiș river. Waterproofing epoxy resin flooring system for the refurbishment of bridges: 650 sq m.

Casa Auto Timișoara Timișoara - Romania

Authorized Mercedes-Benz, Mitsubishi, Ford, Hyundai sales and service center. Epoxy resin flooring system resistant to industrial traffic wear and mechanical shocks: 380 sq m.

AUTOMOTIVE INDUSTRY

Flextronics Modine, Stuttgart - Germany

Manufacturer of electronic and electrical products for the automotive industry. PVC ESD flooring system: 800 sq m, epoxy ESD resin flooring system: 100 sq m, traffic resistant carpet and PVC flooring systems: 900 sq m.

Total sq m: 1 800 sq m.

Premium AEROTEC Braşov - Romania

Manufacturer of Airbus components. Traffic resistant epoxy resin flooring systems: 2 500 sq m, epoxy resin flooring system with a high degree of resistance to chemical aggression: 1 000 sq m, traffic resistant carpet flooring and PVC flooring systems: 2 000 sq m. Total sq m: 5 500 sq m.

UAC Dumbrăviţa, Maramureş - Romania

Manufacturer of aerospace products. Epoxy resin flooring systems, resistant to industrial traffic wear: 800 sq m.

ContiTech Timişoara - Romania

Drive belts manufacturer. Epoxy ESD resin flooring systems: 1 000 sq m.

Heraeus - Incontro Prefabbricati Industrial Park Timişoara - Romania

Manufacturer of electronic equipment for the automotive industry.

“Clean Rooms” epoxy resin flooring and epoxy ESD resin flooring systems: 400 sq m + traffic resistant carpet flooring system: 440 sq m. Total sq m: 840 sq m.

Continental Automotive Ghimbav - Romania

Manufacturer of numerous vehicle components for the automotive industry.

Epoxy resin flooring system resistant to traffic wear and mechanical shocks: 17 500 sq m.

Continental Automotive Product R&D Center Sibiu - Romania

Manufacturer of numerous vehicle components for the automotive industry. ESD carpet flooring systems: 4 000 sq m, traffic resistant PVC flooring system: 500 sq m. Total sq m: 4 500 sq m.

Continental Automotive Product Module 1, 2, 3 Sibiu - Romania

Manufacturer of electrical and electronic equipment for the automotive industry.

Epoxy resin flooring dye Module 1: 1500 sq m, self leveling floor compound and traffic resistant PVC flooring system: 4 500 sq m, self leveling floor compound and traffic resistant carpet flooring: 3 000 sq m. Total sq m: 9 000 sq m.

Continental Carei - Romania

Metal construction contractor.

PVC flooring system: 110 sq m, traffic resistant epoxy resin flooring system: 330 sq m. Total sq m: 440 sq m.

Inna Schaeffler Braşov - Romania

Components manufacturer for the automotive and the wind energy industries.

Epoxy resin flooring system resistant to traffic wear and mechanical shocks: 800 sq m.

Thyssenkrupp Bilstein Compa Sibiu - Romania

Vehicle components manufacturer.

Epoxy resin flooring system resistant to traffic wear and mechanical shocks: 5 000 sq m.

Vimercati East Europe Bacău - Romania

Manufacturer of electric and electronic equipment for the automotive industry. Epoxy ESD resin flooring system: 1 500 sq m, epoxy resin flooring dye: 5 000 sq m, traffic resistant flooring system: 500 sq m. Total sq m: 7 000 sq m.

Sol-Plus Takenaka Europe Hall 1 and 2 Timișoara - Romania

PVC fitting mould manufacturer.

Epoxy resin flooring system resistant to traffic wear and mechanical shocks: 7 500 sq m.

Sol-Plus Timișoara - Romania

Manufacturer of PVC fitting mould.

Epoxy resin flooring system resistant to traffic wear and mechanical shocks: 3 500 sq m.

Bosch Timișoara - Romania

Parking lot and office areas. OS8 and OS13 flooring systems for parking surfaces: 1 500 sq m.

Dräxlmaier Codlea - Romania

Electrical equipment and vehicle interior trim manufacturer for the automotive industry. Epoxy resin flooring system resistant to industrial traffic wear: 1 800 sq m.

Stabilus Braşov - Romania

Manufacturer of electric equipment for the automotive industry.

Epoxy resin flooring system resistant to traffic wear and mechanical shocks: 800 sq m.

Fritzmeier Sibiu - Romania

Cabin truck manufacturer.

Epoxy resin flooring system resistant to traffic wear and mechanical shocks + epoxy resin flooring dye: 500 sq m.

Preh Ghimbav - Romania

Vehicle components manufacturer. PVC ESD flooring system: 1 500 sq m.

IPEC Point Salonta - Romania

Manufacturer of automotive parts.

Traffic resistant epoxy resin flooring, with a high degree of resistance to mechanical shocks and chemical aggression: 3 800 sq m.

SNR Rulmenţi Sibiu - Romania

Bearings manufacturer for the automotive industry.

Traffic resistant epoxy resin flooring, with a high degree of resistance to mechanical shocks and chemical aggression: 1 200 sq m.

ELECTRONICS AND ELECTROTECHNICAL INDUSTRY

Flextronics Timișoara - Romania

American company which provides design, manufacturing, distribution, supply of return/repair services for electronics components and assemblies for original equipment manufacturers. PVC ESD flooring system: 25 000 sq m, epoxy ESD resin flooring system: 10 000 sq m. Total sq m: 35 000 sq m.

Flextronics Mucakevo - Ukraine

PVC ESD flooring system: 8 500 mp, anti-static epoxy resin flooring system: 10 000 sq m. Total sq m: 18 500 sq m.

Flextronics Ronneby - Sweden

PVC ESD flooring system: 2 500 sq m.

Flextronics Modine, Stuttgart - Germany

PVC ESD flooring system: 900 sq m, epoxy ESD resin flooring system : 75 sq m. Total sq m: 975 sq m.

Hella Arad - Romania

Manufacturer of vehicle lightning, electronics systems and components for the automotive industry.

PVC ESD flooring system: 1 681 sq m, epoxy ESD resin flooring system: 705 sq m. Total sq m: 2 400 sq m.

Willy Kreutz Timișoara - Romania

Components manufacturer for the electrotechnical industry.

Epoxy resin flooring mortar for dry production areas: 4 500 sq m.

DM Elektron Râșnov - Romania

Electronics assembly manufacturer. Epoxy ESD resin flooring system: 2 200 sq m.

Yazaki Arad - Romania

Wire manufacturer. Epoxy ESD resin flooring system: 1 200 sq m.

RCS-RDS Bucharest - Romania

Cable TV and internet access provider. Epoxy resin flooring system resistant to industrial traffic wear: 300 sq m, soffit preparation and dye: 210 ml, polyurethane epoxy resin flooring system: 210 sq m. Total sq m: 510 sq m.

Orange Bucharest- Romania

Mobile network operator and internet service provider. Epoxy ESD resin flooring system: 300 sq m.

Microelectronica Bucharest - Romania

Institute Munich Franhoffer Clean Rooms. Epoxy ESD resin flooring system: 800 sq m.

Celestica Oradea - Romania

Electronic systems manufacturer. PVC ESD flooring system: 10 000 sq m.

Honeywell Lugoj - Romania

Alarm system manufacturer.

PVC ESD flooring system: 6 000 sq m, epoxy ESD resin flooring system: 1 000 sq m. Total sq m: 7 000 sq m.

Continental Automotive (Siemens VDO) Timișoara - Romania

Manufacturer of electronic equipment for the automotive industry. PVC ESD flooring system: 1 500 sq m.

Continental Automotive Product Module 1, 2, 3 Sibiu - Romania

Manufacturer of electrical and electronic equipment for the automotive industry.

Epoxy resin flooring dye Module 1: 1500 sq m, self leveling floor compound and traffic resistant PVC flooring system: 4 500 sq m, self leveling floor compound and traffic resistant carpet flooring: 3 000 sq m. Total sq m: 9 000 sq m.

Simea Siemens Sibiu - Romania

Manufacturer of electronic security equipment and systems for the aviation and transport industries.

Epoxy ESD resin flooring system: 4 500 sq m.

Vogt Electronic Jimbolia - Romania

Electronic components manufacturer. Epoxy resin flooring system and PVC ESD flooring system: 3 000 sq m.

Delphi Packard Sânnicolau Mare - Romania

Cable manufacturer. Epoxy ESD resin flooring system: 1 500 sq m.

Electra Iași - Romania

Intercom and video intercom systems manufacturer. Epoxy ESD resin flooring system: 2 500 sq m.

Steinel Electronic Curtea de Argeș - Romania

German manufacturer of electric equipment. PVC ESD flooring system: 2 500 sq m.

Romtelecom - Romania

Telecommunications company. PVC ESD flooring system: 50 000 sq m.

Miele Feldioara - Romania

Household and commercial appliances manufacturer. PVC ESD flooring system: 5 000 sq m.

Benchmark Electronics Ghimbav - Romania

Test and measurement devices, data management and medical equipment manufacturer.

PVC ESD flooring system: 6 000 sq m.

Vimercati East Europe Bacău - Romania

Manufacturer of electronic equipment for the automotive industry. Epoxy ESD resin flooring system: 1 500 mp, epoxy resin flooring dye: 5 000 sq m, traffic resistant flooring system: 500 sq m. Total sq m: 7 000 sq m.

Continental Automotive Product R&D Center Sibiu - Romania

Manufacturer of numerous vehicle components for the automotive industry. ESD carpet flooring systems: 4 000 sq m, traffic resistant PVC flooring system: 500 sq m. Total sq m: 4 500 sq m.

Interelektronik Snagov - Romania

Company operating in the field of electronic services. PVC ESD flooring system: 5 000 sq m.

Mark Telecom Specialist București - Romania

PVC ESD flooring system: 2 000 sq m.

Termocentrale Turceni - Romania

Power plant. PVC ESD flooring system: 500 sq m.

FOOD INDUSTRY

Smithfield Timișoara - Romania

World's largest pork processor and hog producer. Traffic resistant methacrylate flooring system: 5 000 sq m.

Greiner Assistec Câmpulung - Romania

Manufacturer of plastic and paperboard packaging for the food industry.

Epoxy resin flooring dye and epoxy resin flooring system applied in 3 layers: 4 000 sq m.

Real - Romania

Hypermarket.

Skid-resistant epoxy resin flooring system, with a degree of resistance to mechanical shock: 2 000 sq m.

Croco Onești - Romania

Biscuit sticks, crackers, brezel and biscuits producer. Skid-resistant epoxy resin flooring system, with a high degree of resistance to traffic wear: 2 800 sq m, epoxy resin flooring system with a high degree of resistance to traffic wear: 1 500 sq m, epoxy resin flooring dye: 400 sq m. Total sq m: 4 700 sq m.

Selgros - Romania

Cash & Carry. Epoxy resin flooring mortar: 13 000 sq m, epoxy resin flooring system resistant to industrial traffic wear: 10 500 sq m, traffic resistant PVC flooring system: 1 400 sq m. Total sq m: 25 000 sq m.

Cordial M.V. Iași - Romania

Canned fish producer. Skid-resistant epoxy resin flooring mortar for wet production areas: 1 500 sq m.

Ocean Fish Bucharest - Romania

Producer of pre-cooked fish and seafood.

Skid-resistant epoxy resin flooring mortar for wet production areas: 3 000 sq m.

Lactofarm Hamba Sibiu - Romania

Producer of meat products. Skid-resistant epoxy resin flooring mortar for wet production areas: 800 sq m.

Fornetti Timișoara - Romania

Pastry manufacturer.

Skid-resistant epoxy resin flooring, resistant to traffic wear and mechanical shocks: 2 500 sq m.

Pambac Bacău - Romania

Pasta manufacturer and a centre for milling & baking .

Skid-resistant epoxy resin flooring, resistant to traffic wear and mechanical shocks: 6 000 sq m.

MonteBanato Reșița - Romania

Pasta manufacturer. Skid-resistant epoxy resin flooring, resistant to traffic wear and mechanical shocks: 6 000 sq m.

Varga Quattro Carei - Romania

Bread and bakery products manufacturer.

Skid-resistant epoxy resin flooring, resistant to traffic wear and mechanical shocks: 300 sq m.

Hochland Sighișoara - Romania

Cheese producer. Skid-resistant epoxy resin flooring, resistant to traffic wear and mechanical shocks: 1 000 sq m.

Mureșan srl Teaca - Romania

Skid-resistant epoxy resin flooring, resistant to traffic wear and mechanical shocks: 2 500 sq m.

Dorna Lactate Vatra Dornei - Romania

Dairy producer. Skid-resistant epoxy resin flooring, resistant to traffic wear and mechanical shocks: 1 500 sq m.

Antarctica Timișoara - Romania

Ice cream producer. Epoxy resin flooring dye: 1 500 sq m, traffic resistant epoxy resin flooring system: 2 000 sq m.

Total sq m: 3 500 sq m.

Esarom Sibiu - Romania

Producer of raw materials for the food industry.

Skid-resistant epoxy resin flooring, resistant to traffic wear and mechanical shocks: 1 000 sq m.

Lactate Dobrogene Ovidiu, Constanța - Romania

Dairy producer. Skid-resistant epoxy resin flooring, resistant to traffic wear and mechanical shocks: 1 500 sq m.

Helvetica Milk Pecica, Arad - Romania

Dairy producer. Skid-resistant epoxy resin flooring, resistant to traffic wear and mechanical shocks: 500 sq m.

Raptronic Braşov - Romania

Chocolate factory. Skid-resistant epoxy resin flooring, resistant to traffic wear and mechanical shocks: 1 800 sq m.

Nestle Timişoara - Romania

Waffles manufacturer.

Skid-resistant epoxy resin flooring, resistant to traffic wear and mechanical shocks: 5 000 sq m.

Ursus Breweries Buzău - Romania

Brewery.

PurCem flooring system + epoxy resin flooring system, resistant to traffic wear and mechanical shocks: 1 500 sq m.

Timișoreana Timişoara - Romania

Brewery. Skid-resistant epoxy resin flooring, resistant to traffic wear and mechanical shocks: 500 sq m.

Philip Morris Bucharest - Romania

Manufacturer of tobacco products. CompactFloor decorative industrial epoxy resin flooring system: 3500 sq m.

Legofruct Timişoara - Romania

Frozen fruits and vegetables plant.

Epoxy resin flooring system, resistant to traffic wear and mechanical shocks: 2 500 sq m.

Ardealul Carei - Romania

Food processing plant. Epoxy ESD resin flooring system: 500 sq m.

Reinert Braşov - Romania

Producer of meat and meat products for the Eastern Europe. Skid-resistant epoxy resin flooring mortar for wet production areas: 7 600 sq m.

Food 2000 Bocşa - Romania

Poultry farming. Skid-resistant epoxy resin flooring mortar for wet production areas: 3 000 sq m.

DAF Junior Timişoara - Romania

Restaurant. Decorative epoxy resin flooring system, resistant to traffic wear: 350 sq m.

Jumbo Bocşa - Romania

Producer of cold cuts. Skid-resistant epoxy resin flooring mortar for wet production areas: 5 500 sq m.

PHARMACEUTICAL INDUSTRY

Zentiva Sicomed Bucharest - Romania

Drug manufacturer.

Epoxy resin flooring system, with a high degree of resistance to traffic wear and mechanical shocks: 5 000 sq m.

Biotehnos Otopeni - Romania

Drug manufacturer. Epoxy resin flooring system applied in three layers with a high degree of resistance to traffic wear, mechanical shock and chemical aggression: 1 000 sq m, epoxy resin flooring system applied in two layers with a high degree of resistance to traffic wear: 1 500 sq m. Total sq m: 2 500 sq m.

Terapia Ranbaxy Cluj-Napoca - Romania

Drug manufacturer.

Epoxy resin flooring system, with a high degree of resistance to traffic wear and mechanical shocks: 6 000 sq m.

Arcatim Timișoara - Romania

Distributor of pharmaceuticals and parapharmaceutical products.

Epoxy resin flooring system, with a high degree of resistance to traffic wear and mechanical shocks: 1 500 sq m.

Onedia Bucharest - Romania

Distributor of pharmaceuticals and parapharmaceutical products.

Epoxy resin flooring system, with a high degree of resistance to traffic wear and mechanical shocks: 2 000 sq m.

Sandoz Târgu Mureş - Romania

Drug manufacturer. Epoxy resin flooring system, with a high degree of resistance to traffic wear and mechanical shocks: 500 sq m.

Clinicco – ICCO Clinics Braşov - Romania

Epoxy resin flooring system, with a high degree of resistance to traffic wear : 5 050 sq m, “Clean Rooms” epoxy resin flooring system: 200 sq m, epoxy resin flooring dye: 530 sq m. Total sq m: 5 800 sq m.

Timișoara Cardiology Institute Timișoara - Romania

Polyurethane epoxy resin flooring system, with a high degree of resistance to traffic wear: 350 sq m.

Timișoara County Hospital Timișoara - Romania

Traffic resistant PVC flooring system: 500 sq m.

TEXTILE INDUSTRY

Maxtile Arad - Romania

Sofas factory. Epoxy resin flooring dye: 4 500 sq m.

Intex Năsăud - Romania

Cotton fabric manufacturer.

Epoxy resin flooring dye + epoxy resin flooring system resistant to industrial traffic wear: 4 500 sq m.

Speidel Focșani - Romania

Manufacturer of underwear. Decorative epoxy resin flooring system, with a high degree of resistance to traffic wear and mechanical shocks: 1 000 sq m.

Artifex Focșani - Romania

Clothing factory. Traffic resistant epoxy resin flooring system: 600 sq m.

SUPERMARKETS

Praktiker - Romania

4 stores. PVC flooring system resistant to heavy traffic: 4 000 sq m.

Real - Romania

6 stores. PVC flooring system resistant to heavy traffic + epoxy resin flooring system with a high degree of resistance to traffic wear: 4 800 sq m.

OBI Timișoara, Arad, Oradea - Romania

3 stores. PVC flooring system resistant to heavy traffic: 1 500 sq m.

Selgros - Romania

20 stores. Epoxy resin flooring mortar + industrial epoxy resin flooring system: 25 000 sq m.

Billa - Romania

Warehouse and logistics areas.

Traffic resistant epoxy ESD flooring system, with a degree of resistance to mechanical shock: 2 500 sq m.

Penny - Romania

Logistics area. Epoxy resin flooring system, with a high degree of resistance to heavy traffic: 2 500 sq m.

Spar Sfântu Gheorghe and Timișoara - Romania

Logistics area. Epoxy resin flooring system, with a high degree of resistance to heavy traffic: 500 sq m.

Hornbach Timișoara - Romania

Offices and logistics areas. Epoxy resin flooring system, with a high degree of resistance to heavy traffic + traffic resistant carpet flooring: 800 sq m.

Interex Ploiești - Romania

Sales area. Traffic resistant epoxy flooring system + epoxy resin flooring dye: 1 000 sq m.

West Huntermar Timișoara - Romania

Hunting store. Traffic resistant epoxy flooring system: 200 sq m.
